## ***CAP Eligibility Table***

**Last Revised: 02/03/2016**

*The CAP program is for minor traffic and criminal offenders where the offense in comparison to the offender's record is such that it appears inappropriate to convict the offender. CAP educates offenders and rewards successful completion of the program with dismissal of the offense. A CAP fee offsets the costs of the program and deters future offenses. The decision to dismiss the case lies within the prosecutor's discretion. The offender must qualify and complete the program before the first court appearance or the case will be handled in Court.*

*General eligibility Rules: Offenses involving accidents, endangerment, or committed by persons with Commercial driver's licenses are not eligible for CAP. Cases that involve restitution or violence are not eligible for CAP. Serious offenses, as determined by the Prosecutor, may be excluded from CAP. Prior offenses include convictions, pending offenses, stays of adjudication, CAP disposition, continuances for dismissal (CFDs), and similar dispositions.*

**\*Note: State law requires payment of a \$75 surcharge for completing a diversion program for a violation of the Minnesota traffic code Chapter 169. THIS SURCHARGE IS IN ADDITION TO THE CAP FEES.**

**\*\* "Monitor 365" means the offender's driving record will be checked prior to one year from CAP completion and if additional violations have occurred the CAP offense may be re-charged at the discretion of the Prosecutor.**

**CAP REQUIREMENTS ARE SUBJECT TO CHANGE WITHOUT NOTICE**
